Patient consent script for AI scribe

Patient consent script for AI scribe Before we begin our visit I would like to inform you about the AI scribe software tool I use to improve clinical note taking this tool helps me focus more on your chair by reducing the time I spend on the computer related tasks if the cactuses and converts our conversation into text which is then summarized into a clinical note I will review and edit this note before adding it to your chart. Rest assured the tool only access our conversation during your visit and does not use the information afterward
